tative District will meet in Mass Convention at the court house in Iola on Saturday the 3d day of August 1878, at 2 o'clock p. m. for the purpose of choosing two delegates to attend the Congressional Convention at Garnett on the 7th day of August, 1878, and two delegates to attend the State Convention at Tope ka on the 28th day of August 1878. W. G. Allison,

Chairman Central Committee. SOUTHERN KANSAS CORRESPONDENCE.

SUMNER Co., Kaus., July 17, 1878. Editors Register: Weather hot, and scarcely energy enough to write; but I must resume my random talk about what

I have seen since my last letter. Montgomery county from Independ ence to the west line of the county is well settled with enterprising farmers. The eastern part of Chatauqua is rough and hilly, and but thinly settled

but the western portions of both Chatauqua and Elk are well settled. Big Caney runs through the western portion of these counties, and furnishes some rich bottom lands. The crops looked well, and farmers ought to be happy, but there is always something to mar the happiness of mankind. We were told that nearly all of these fine farms are covered with mortgages, and it is only a question of time when the present own ers will have to give them up for prob ably half their value, and leave the re-sult of their toils and privations to the enjoyment of strangers, and they again press on to the frontier, and make the sert abound with cultivated farms and happy homes. Why cannot our farmers learn this fact, that not one in ten can borrow money at twenty, fifteen or even twelve per cent., and in the end come out even. Nearly every person who borrows at these rates loses his farm, and when it is paid, if ever, he is fifty per cent. worse off than when he borrowed the money. Give these money loaners a wide berth. Struggle and fight manfully with adversity, and you will event-ually conquer, and be prosperous and happy.
The Flint Hills make the eastern part

of Cowley county unfit for cultivation,

and there are but few inhabitants, but the western portion contains the richest farming lands through which we have The soil is a deep, black loam, and the crops show its wonderful fertility. The wheat crop here is very heavy. The farmer could not ask for a more bountiful season. From one point we counted nearly two hundred large stacks and ricks of wheat. But not withstanding the heavy yield, the low price of grain, and the long distance from market presents a serious obstacle to the farmer. Wichita is the nearest wheat market for the farmers of Cowley County, and it is from 40 to 65 miles distant. Wheat at from 50 to 60 cents per basel will not leave very large margin after paying the expenses of seeding harvesting and marketing. The farmers of this section are quite hopeful of a favorable solution of the transporation question by the navigation of the Arkansas river. On the 5th of this month a small stern wheel steamer, the "Aunt Sally" arrived at Arkansas. She was the first steamer that ever ascended the river to that point, and the event created great excitement. She took in a cargo of 6,000 bushels of wheat for Little Rock, We understand that two or three other steamers will embark in this trade. Let the Arkansas become navigable, and this will be the most desirable farming distance.

(A. S. Hankins, et al.)
